

Partners in Industry

In a time of supply tightness and carrier limitations, Diverse trucking along with our Belleville, Ontario plant has been extremely flexible to assist the needs of our customers with short lead times. Maintaining a reliable carrier and being a team to respond in a timely manner has kept our grid functional. It's essential in forging stronger partnerships sustaining our level of customer service commitment. We share in confidence the efforts made by all parties involved. With much appreciation, we are excited about future opportunities.

Bright Stock Replacement - Soltex BSR 30

Group I base stock refining capacity have seen a reduction that has led to limited supply increased pricing in the market. This has provided opportunities for

alternatives. Bright Stocks can be used in multiple end-use applications such as: Automotive gear, HDMO, Process Oil, Industrial Gear, Marine, Greases, and PCMO. Soltex BSR 30 is a polymeric based viscosity modifier developed for use in a wide range of high viscosity, industrial lubricants and as an alternative to 150 bright stock. The below charts show comparison blending BSR 30 against commercial bright stocks in Group II 4 cst. base oil demonstrating improved viscosity index across various treat rates and improved pour points when BSR 30 is blended at higher levels versus bright stocks. Customer Testimonies - DF

We pride ourselves on adding value to your formulations. Beyond this mission of service, the people we impact matter a great deal. Read below comments from a few of our Dielectric Fluids customers.

“Soltex has provided quality products, outstanding support, and dedicated teamwork throughout the years for WA Chester. We have come to rely on the Soltex team for emergent as well as planned work given their commitment to not only our needs but also our customers. We thank the Soltex team for their continued support and look forward to many more years of project success.”

- Charles Vandenburg Jr., Southern Director for W.A. Chester

“We have been using Soltex exclusively for over 15 years as they have been able to meet our stringent fluid property requirements. Orders are processed quickly and always followed up with calls from their Sales Representative to ensure the deliveries are made on the dates requested. Whether it is delivery by tanker or rail car, the Sales Representative is already ready to assist in any way possible to meet our needs in both emergency and normal operations. I would highly recommend using Soltex as a supplier of Dielectric Fluids.”

- Valuable Customer of Dielectric Fluids
